

TO ACCESS YOUR COVID-19 VACCINATION RECORD

- 1) Link your Medicare card number with your myGov account (<https://my.gov.au/>). If you do not have an existing myGov account, you can register for a myGov account through the website. **myGov is a simple and secure way to access government services online in one place, created by the Australian Government.**
- 2) After linking your Medicare card number with your myGov account, download the **Express Plus Medicare** app on your smartphone through the App Store of your smartphone.

- 3) Log into the Express Plus Medicare app using your myGov username and password. Sign in with the PIN number that you have chosen.
- 4) Tap on “Immunisation history” under Services.

- 5) Scroll down the page and tap on “View immunisation history statement”.
- 6) In the Immunisation history statement, your COVID-19 vaccination record would display the **Date given**, **Immunisation (COVID-19)**, and the **Brand name given (Pfizer Comirnaty)**.
- 7) Your vaccination record would usually appear on the Express Plus Medicare app approximately 1-2 weeks after receiving your vaccine.
- 8) After completing **2 doses of the vaccine**, a new section named “View COVID-19 digital certificate” would appear at the “Immunisation history” section. Tap that and your COVID-19 certificate would appear as per the example below:

To book in for your second dose vaccine appointment at one of the government vaccination centres, please call the COVID-19 vaccine booking hotline at **1800 675 398. If you experience any difficulty to book in via the hotline, please contact us at nwmwv@aspenmedical.com (between 9am-4pm, Monday to Friday).**
